

A black and white photograph of an industrial refinery at night, illuminated by numerous lights. The scene features several tall distillation columns and a complex network of pipes and scaffolding. The sky is dark with some clouds. A semi-transparent white banner is overlaid across the middle of the image, containing the company logo and slogan.

Soluzioni Piping srl Soluzioni Piping srl is a business based in Livorno that deals with the wholesale trade of piping material (stainless steel and special materials pipes, flanges, fittings and valves in particular) for the chemical, petrochemical, naval, energy, oil&gas sectors.

Although by definition our society is a Newco, we already have a consolidated knowledge of piping, thanks to the decades of experience of its members, some of which started their path in this sector at the end of the 1980s.

About us

Why us

Competence, experience, reliability, technical solutions' knowledge, speed of response and supply, network of contacts with costumers and sector's producers: these are the main competitive advantages offered by our company.

Our deep and consolidated sector's knowledge allows us to propose to our customers the best customized solutions for their specific business needs: **our goal is to become a partner of our customers and not just simple suppliers.**

Piping material for medium-large companies and mainly national end-users' personalized packages' supply.

Supply of mainly purchased abroad on special set-up and intended for italian retailers stainless material (especially pipes): this specific service is designed for customers who - having no experience or resources to go into the importations field - want to rely on a partner with detailed and consolidated knowledge of the specific production techniques, the regulations and the import-related instruments and strong contacts with foreign producers.
